

NURTURING YOUNG MINDS

Consultation for Autism Spectrum Disorder

In north central Alberta, children with a **possibility or diagnosis of Autism Spectrum Disorder** can be referred to the Glenrose Rehabilitation Hospital for consultation.

Dr. Hapchyn is providing liaison between the Glenrose Rehabilitation Hospital Developmental Pediatric Services and ElmTree Clinic to ensure that young children with complex developmental challenges and their families are getting the most appropriate services as quickly and efficiently as possible.

We are not providing consultation or follow-up for children with ASD at ElmTree Clinic.

Thank you.

Dr. Carole Anne Hapchyn
