Coronavirus Story
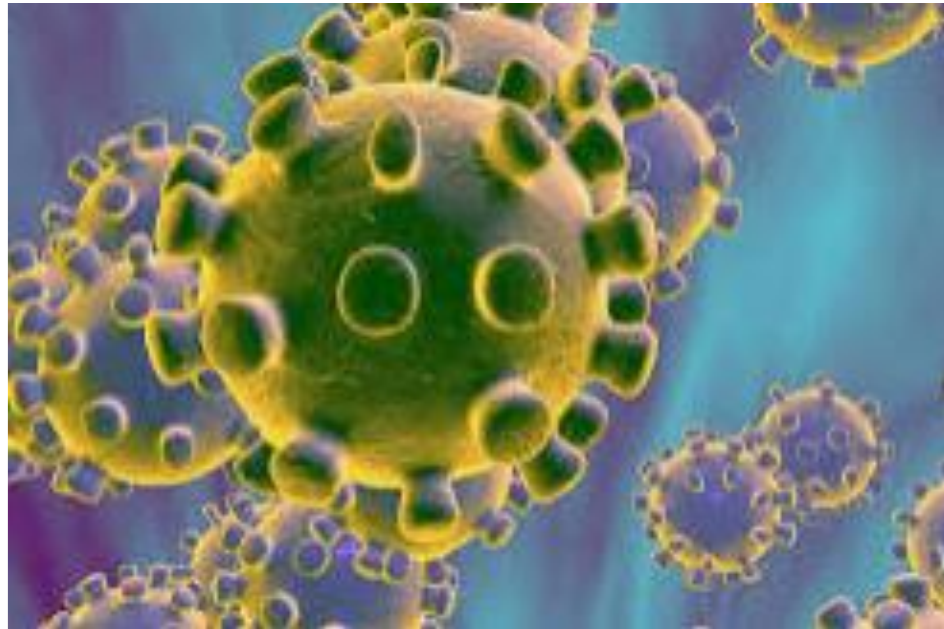

Sometimes we get sick…

There is one virus named…Coronavirus, that can make us sick.
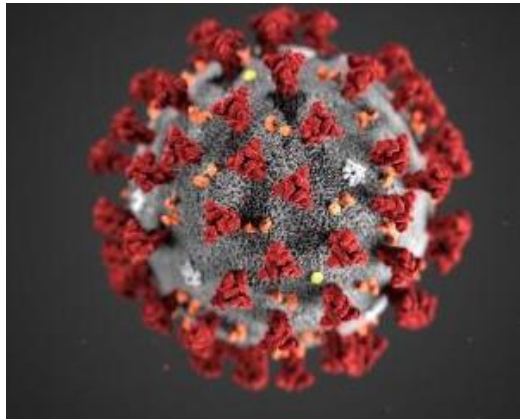

We can get sick because of little tiny things called viruses, that get into our body…
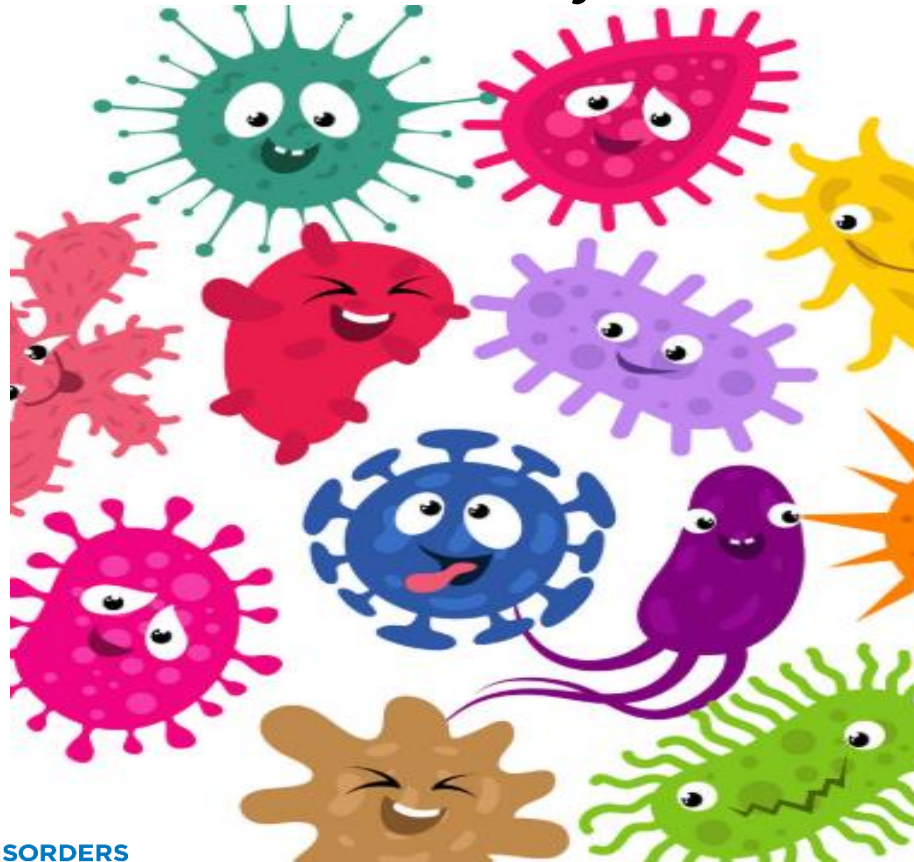

I will stay healthy by:

Washing my hands throughout the day while counting to

20 slowly each time

Covering my nose and mouth when I sneeze

And… Staying at home

& NEURODEVELOPMENTAL DISORDERS

UCI Health

To keep us safe from Coronavirus my school will be closed…

I can work on the homework my teacher sent me while my school is closed…

There are many fun things I can do at home when I am not doing school work…

I will follow my parents directions and be safe at home…

The end.
